

My sincere thanks to

- **Professor Lalit Maini and Dr Pushpinder Bajaj & The ISKSAA Team**
- **Dr Sanjeev Anand**

Myself Dr. Giridhar Boyapati have successfully completed ISKSAA BOA fellowship under Dr. Sanjeev Anand in September 2019. Dr. Sanjeev helped us throughout the process for visa, travel arrangements, accommodation at the hospital and with dates of the fellowship. We reached Liverpool on 10th September to attend BOA Annual congress 2019. The whole conference was an academic feast where we did get to meet many eminent Indian doctors practicing in England.

On 13th we travelled from Liverpool to Leeds. Our accommodation is provided at Leeds General infirmary for first 5 days and at St James Hospital accommodation wing for remaining 10 days. On first day of our work we need to attend HR department to submit our original passport and police clearance certificates. Same day we were introduced to staff at Chapel Allerton Hospital which is dedicated to elective orthopaedic surgeries. We were able to observe arthroscopic ACL, meniscal repairs and few cases of multi ligament injury repair. The best part being clinics of Dr. Sanjeev Anand, lot to learn from his detailed history taking and meticulous knee examination. Got a chance to attend cases with Dr Emerton performing Kinematic knee alignment and cementless UKA. He explained to us the concepts of kinematic TKA and steps of performing the surgery. Able to observe Revision hip and knee arthroplasty cases with Dr T. Veysi and Dr Whitwell. Had an amazing experience at Leeds learning new surgical techniques and advances in patient care.

As this time of the year the weather is just right for such a course in England and weekends are good to explore it by travelling to London and Scotland.

I am once again thankful to team ISKSAA, Dr. Pushpinder Bajaj, Dr Lalit Maini and Dr. Sanjeev Anand for providing me with this wonderful opportunity.

Best regards,
Dr. Giridhar Boyapati
