

ISKSAA John O Donnell Clinical Research Fellowship **in Hip Arthroscopy**

ISKSAA is proud to announce the inaugural ISKSAA John O Donnell Clinical Research Fellowship. This is a clinical research fellowship of 3 months duration starting from 1st August 2017 to be undertaken in Melbourne, Australia under the supervision of John O Donnell, one of the highest volume hip arthroscopy surgeons in the world and the past president of the International Society for Hip Arthroscopy (ISHA) .

Fellowship Location/s

Hip Arthroscopy Australia, Melbourne, Australia
St Vincent's Hospital, Melbourne, Australia

Fellowship Goals and Educational Objectives

This clinical research fellowship offers a unique opportunity to become involved in a variety of clinical research projects, with the expectation of at least one publication in a major peer reviewed journal. The successful Fellow will be expected to organize and carry out at least one major research project. In addition, there will be an opportunity for the Fellow to observe consulting and operating (hip arthroscopy and anterior hip replacements).

Fellowship Requirements

1. ISKSAA member
2. The applicant must have completed formal postgraduate training in the field of orthopaedic surgery
3. No more than 45 years of age at the time of application.
4. The applicant must have some previous research experience.
5. The applicant must have an interest in the field of hip arthroscopy and/or anterior hip replacement surgery.

A total of 26 candidates applied for this fellowship out of which 7 were shortlisted for telephone interviews based on their CV and letter of intent . ISKSAA is pleased to announce that Dr. GanguHiral (ISKSAA Member number 1363) of Karnataka has been selected as the inaugural ISKSAA JOD Clinical Research Fellow.

We congratulate DrGanguHiralon this achievement and wish him well for the Fellowship.
